# YOUTH ATTITUDE TRACKING STUDY II

Supplementary Tabulations of Data Collected in the Fall 1983

This report has been prepared for the Office of the Assistant Secretary of Defense, Defense Manpower Data Center, under Contract Number MDA903-83-C-0172, expiring 5/7/84. The Research Triangle Institute (RTI) has been the contractor for this study. Robert M. Bray, Ph.D., has served as RTI's project director. His telephone number is 919-541-6433.

The views, opinions, and findings contained in this report are those of the authors and should not be construed as an official Department of Defense position, policy, or decision, unless so designated by other official documentation.

Additional copies of this report may be obtained from:

Defense Manpower Data Center Survey and Market Analysis Division 1600 N. Wilson Boulevard, Suite 400 Arlington, VA 22209

#### INTRODUCTION

The reconfigured Youth Attitude Tracking Study II (YATS II) merges the former Youth Attitude Tracking Study (YATS) and the no-prior-service portion of the Reserve Component Attitude Study (RCAS) into a single study design. The purpose of the study is to assess the backgrounds, attitudes, motivations, and intentions to serve in the military of young men and women.

In this volume are supplementary tabulations that show the distributions of responses to most of the questions asked during the 30-minute telephone interview for YATS II. The interpretive analyses appear in a companion volume, Youth Attitude Tracking Study II: Fall, 1983.

### <u>Definitions</u> and <u>Organization</u> of Data Tables

Respondents to YATS II were drawn from three market groups:

- . Young Males aged 16-21,
- . Older Males aged 22-29, and
- . Females, aged 16-21.

Consistent with past YATS surveys, eligible individuals had no prior military service and were not beyond the second year of college.

Merging YATS and RCAS into YATS II resulted in a questionnaire that asked some respondents about their likelihood of serving in the Active military (the Active subsample) and asked other respondents about their likelihood of serving in the Reserve components of the military (the Guard/Reserve subsample). Part I presents data tables for the Active respondent subsample; Part II presents data tables for the Guard/Reserve respondent subsample.

All respondents answered questionnaire Sections A and D. The Active subsample answered Section B but not Section C; the Guard/Reserve subsample answered Section C but not Section B. The division of parts is illusted below:

<u>Part</u>	<u>Subsample</u>	Questionnaire Sections Answered
I	Active	A, B, D
II	Guard/Reserve	A, C, D

Items appear in the tables in the order that they were asked in the interview for each of the subsamples.

The number of respondents for the three market groups and for the Active and Guard/Reserve subsamples for YATS II appear in table 1.1.

Table 1.1. Market Group and Subsample Respondents

Subsample	Young Males	Older Males	Females	Total
Active	4,416	798	876	6,090
Guard/Reserve	532	355	437	1,324
Total	4,948	1,153	1,313	7,414

Each table presents the marginal item distributions for each target market group. Within each market group, the item is cross tabulated with the key analysis variable of "composite propensity to serve in the military."

Because each table presents data by composite propensity to join the military, results must be reported separately for each subsample of respondents. In the case of the Active subsample, propensity refers to composite propensity to join the active Services; for the Guard/Reserve subsample, propensity refers to composite propensity to join the National Guard or Reserves.

Propensity to enlist in the military was constructed separately, but similarly, for the Active subsample and the Guard/Reserve subsample. For the Active subsample, composite propensity was based on responses to questions regarding the likelihood of serving on active duty in the Army, Navy, Marine Corps, or Air Force. For the Guard/Reserve subsample, propensity was based on responses to questions regarding the likelihood of serving in each of the six Reserve components—Army National Guard, Army Reserve, Naval Reserve, Marine Corps Reserve, Air National Guard, and Air Force Reserves.

The response options for each of the propensity items are "definitely enlist," "probably enlist," "probably not enlist" and "definitely not enlist." Composite propensity is the respondent's most positive response to the four items about enlisting in the Active military (composite active propensity) or to the six items about enlisting in the Reserve components (composite Guard/Reserve propensity). For example, an individual who indicated that he would "probably enlist" in the Army, but "probably not enlist" in the Navy, the Air Force, or the Marine Corps was assigned a value of "probably enlist" on the composite active propensity measure. Individuals whose responses were "definitely enlist" or "probably enlist" on the composite measure belong to the positive propensity category shown in the tables. The negative propensity category

includes respondents whose answers on the composite measure were "probably not," "definitely not," or "don't know" and who "refused."

#### Table Format

The Supplementary Tabulations provide information about the distributions of items for YATS II data. Tables present percentages based on sample data weighted to yield population counts.\* Additionally, the bottom row of the tables shows the actual number of respondents on which the weighted estimates in the columns are based. These numbers can be used, roughly, to judge the relative reliability of the estimates; estimates based on small numbers of respondents are less reliable than those based on larger numbers.

Because of considerable variation in the design effects associated with individual items, it was not possible to provide information about generalized standard errors for the tables. Thus, data from the tables should be used for determining how respondents reacted to individual

<sup>\*</sup>It is necessary to weight the sample results primarily because respondents were chosen with non-random selection probabilities based on the 1983 study's stratified, two-stage sample design. In order to include respondents from less-populated areas (MEPS) to support reliable estimates and in order not to waste resources by questioning more respondents from heavily-populated areas than are needed to make reliable estimates, sample members were selected with probabilities disproportionate to their representation in the population. Sample weighting basically multiplies the respondents by the inverse of their original selection probabilities to reestablish their impact on estimates proportional to their representation in the population. Then, within each MEPS, the weights are adjusted to account for nonresponding households and nonresponding eligibles identified in a household. In addition the weights account for multiple households contacted using a single telephone number and for households that could have been contacted using multiple telephone numbers. As a result, the weighted percentages presented in this report are unbiased estimates of national percentages.

items or sets of items and for framing questions about issues that may be of further analytical interest. It is <u>not</u> appropriate to use these data to make comparison statements about significant differences.

A maximum of 9 different subgroups appear in the tables. These are:

- Young males with positive propensity.
- 2) Young males with negative propensity.
- 3) Older males with positive propensity.
- 4) Older males with negative propensity.
- 5) Females with positive propensity.
- 6) Females with negative propensity.
- 7) Young males overall (total of groups 1 & 2).
- 8) Older males overall (total of groups 3 & 4).
- 9) Females overall (total of groups 5 & 6).

Some questionnaire items were asked only of specific market groups (e.g., older males only). In these cases the tables have fewer columns.

#### Reading the Tables

In all cases, percentages in the tables are column percentages and sum to 100. Percentages are within market group and level of propensity for the first six columns. The three right-most columns present percentages within each market group as a whole. Care must be taken to interpret a percentage within the appropriate subgroup.

The table format used allows direct comparison of the different subgroups. For example, in table A\_4 on page 10, one can see that 50 percent of the older males report the 12th grade as their highest grade

attended, whereas only 41 percent of the young males report the 12th grade as their highest. Similarly, for young males with positive propensity to serve in the active military, 38 percent report the 12th grade as the highest grade attended; for young males with negative propensity, 43 percent indicate the 12th grade as their highest.

It is important to correctly interpret the column percentages for positive and negative propensity (see above). In table A\_4, row percentage data show the percentage of respondents whose highest grade attended is the twelfth grade among those who also have positive (negative) propensity. Care should be taken <u>not</u> to interpret the tables using a row percentage.

#### Questionnaire Items Within Skip Patterns

Some questionnaire items appear inside skip patterns. For instance, respondents who did not complete high school were not asked what kinds of schools they have attended since high school. The latter question (called a "filtered" question) was asked only of the subset of individuals who had already completed high school. Accordingly, the numbers of respondents to these filtered questionnaire items are smaller, and the percentages are based only on the relevant subgroup.

Questions within a skip pattern can be identified by smaller numbers of respondents and, often, by a parenthetical remark in the table title. Skip pattern instructions appear in the questionnaire (appendix A).

Appendix A
YATS II Questionnaire

Questionnaire Section A -- Education and Employment Items

- A\_1 I would like to speak with (NAME). Is (he/she) available?
  - 1 = PERSON AVAILABLE
  - 2 = PERSON NOT AVAILABLE → [SKIP TO CALL BACK SCREEN]
  - 3 = REFUSAL PERSON REFUSES TO GET ELIGIBLE PERSON TO PHONE → [SKIP TO CONVERSION SCREEN]
  - 4 = REFUSAL OF ELIGIBLE PERSON → [SKIP TO TERMINATION]

(Hello, my name is \_\_\_\_\_. I am calling from the (Research Triangle Institute/Amrigon), a private research organization in (North Carolina/Michigan).)

We are conducting a study to help the Federal Government learn more about the career and educational plans of youth and young adults. While you may choose not to answer any question, the information you give us is protected under the Privacy Act of 1974. This means your answers will be kept confidential and your identity will never be known to anyone except the research project staff.

- A\_2 WHAT IS THE GENDER OF THE PERSON ON THE LINE? [ASK IF NECESSARY: Are you male or female?]
  - 1 = Male
  - 2 = Female
- A\_3 Just to be sure that the information we got earlier is correct, what was your age on your last birthday?

ENTER NUMBER Acceptable Range = 16-29

- A\_4 Now I have a few questions about your educational experiences. What is the highest grade or year of school or college that you have ever attended?
  - 07 = Less than 8th Grade
  - 08 = 8th Grade
  - 09 = 9th Grade
  - 10 = 10th Grade
  - 11 = 11th Grade
  - 12 = 12th Grade
  - 13 = 1st Year College/Comm./Voc./Trade School (FR)
  - 14 = 2nd Year College/Comm./Voc./Trade School (SO)
  - 15 = 3rd Year College (JR)
  - 16 = 4th Year College (SR)
  - 17 = 5th Year College/1st Year Grad/Prof School
  - 18 = 2nd Year Graduate/Professional School
  - 19 = 3rd Year Graduate/Professional School
  - 20 = More than 3 Years Graduate/Professional School
  - $99 = RE \rightarrow [SKIP TO A.8]$

A\_5 Did you finish that (grade/year) and get credit for it?

1 = Finished this Grade/Year

2 = Did Not Finish This Grade/Year

3 = Now Attending This Grade/Year

3 = only slightly more interested, or

4 = not at all more interested?

C\_52

A new program is being developed by the Armed Forces. Volunteers for this program would join the Individual Ready Reserve for a period of six years and be called to active duty only in case of a national emergency. Normally, the only obligation would be 12 weeks of basic combat training. During the training, volunteers would earn about 575 dollars per month and receive full benefits. There would be no obligation to attend regular meetings or drills during the remainder of the six-year term. If such a program were available to you, how likely would you be to join? Would you be...

1 = very likely to join, → [SKIP TO D.1.]

2 = somewhat likely to join,

3 = only slightly likely to join, or

4 = not at all likely to join?

C\_53 If you were to receive a 1,000 dollar bonus for enlisting in the program I just described, how likely would you be to join? Would you be...

1 = very likely to join,

2 = somewhat likely to join,

3 = only slightly likely to join, or

4 = not at all likely to join?

# Questionnaire Section D -- Advertising, Recruiter Contact, and Demographic Items

- D\_1 For what military service or services do you recall seeing or hearing advertising that encouraged people to enlist in one of the active duty services? [ENTER CODE FOR EACH MENTION. PROBE: Any other services?]
  - 0 = None → [ALLOWED FOR FIRST MENTION ONLY--SKIP TO D.2]
  - 1 = Air Force
  - 2 = Army
  - 3 = Coast Guard
  - 4 = Marine Corps
  - 5 = Navy
  - 6 = National Guard/Reserves
  - 7 = One Ad for All Services
  - 8 = DK → [ALLOWED FOR FIRST MENTION ONLY--SKIP TO D.2]
  - 9 = RE → [ALLOWED FOR FIRST MENTION ONLY--SKIP TO D.4]
- Do you recall seeing or hearing any advertising for [EACH SERVICE NOT MENTIONED IN D.1] recently?

#### the Air Force?

```
D 49
          Now, I'd like for you to give me your opinions on the following
           issues.
          All 18-year-old males are now required to register for the draft.
          How do you personally feel about the draft registration requirement?
          Are you...
           1 = strongly in favor of it,
           2 = somewhat in favor of it,
           3 = neither in favor nor against it,
           4 = somewhat against it, or
           5 = strongly against it?
D_50
           How would you feel about a program that required all young men to
           give one year of service to the nation--either in the military
           forces or in non-military work such as in hospitals or with elderly
           people? Would you...
           1 = strongly favor it,
           2 = probably favor it,
           3 = probably oppose it, or
           4 = strongly oppose it?
D_51
           And how would you feel about such a program for all young women?
           (Would you...
           1 = strongly favor it,
           2 = probably favor it,
           3 = probably oppose it, or
           4 = strongly oppose it?)
```

SKIP	IF D_50	) >2 AND D_51 >	2, SKIP TO D.53.

D\_52 And suppose that the costs of such a national service program made it necessary to increase your taxes by a small amount--say, 5 percent. (Would you...

1 = strongly favor it, 2 = probably, favor it, 3 = probably oppose it, or 4 = strongly oppose it?)

D\_53 Do you know anyone who has signed up with one of the military services within the last 6 months?

1 = Yes 2 = No 8 = DK 9 = RE -[SKIP TO D.58.]

```
D_54
           How many such people do you know?
           ENTER NUMBER

                     (Ph.D., M.D., L.L.B., D.D.S.)
D 78
           What kind of school or college did she attend for that grade or
           year? Was it...
            1 = vocational, business, or trade school, or
            2 = junior or community college, or
            3 = four-year college or university, or
            4 = graduate or professional school?
```

D\_79 Do you personally own your own home?

1 = Yes

2 = No

- D\_80

  Just to be sure we are representing all groups in our survey, please tell me whether you consider yourself... [IF "HISPANIC" PROBE: Do you consider your race to be white or black?]
  - 1 = White?
  - 2 = Black?
  - 3 = Asian or Pacific Islander? (INCLUDES CHINESE, JAPANESE, FILIPINO, KOREAN, VIETNAMESE, PACIFIC ISLANDER, ASIAN INDIAN, OR OTHER ASIAN)
  - 4 = American Indian or Alaskan Native?
- D\_81 Are you of Hispanic background? [INCLUDES SPANISH-AMERICAN, MEXICAN-AMERICAN, PUERTO RICAN, CHICANO, CUBAN-AMERICAN, ETC.]
  - 1 = Yes, Hispanic background
  - 2 = No, not Hispanic background

Now we would like to get your opinions about some recent events involving the military.

- D\_81A1 What, if any, effect has the bombing of Marines in Lebanon had on the likelihood that you would voluntarily enlist in the Armed Forces? Would you say that you are ...
  - 1 = much more likely to enlist,
  - 2 = somewhat more likely to enlist,
  - 3 = neither more nor less likely to enlist,
  - 4 = somewhat less likely to enlist, or
  - 5 = much less likely to enlist?

D\_81A2 What, if any effect has the military action in Grenada had on the likelihood that you would voluntarily enlist in the Armed Forces? Would you say that you are ...

1 = much more likely to enlist,

2 = somewhat more likely to enlist,

3 = neither more nor less likely to enlist,

4 = somewhat less likely to enlist, or

5 = much less likely to enlist?

D\_82 Now, I need to record your Social Security Number. By law, you do not have to tell me your Social Security Number, but it would help our study--so, can you tell me what it is? [PROBE: Would you look it up? I'll wait.]

ENTER THE 9 DIGIT SOCIAL SECURITY NUMBER OR THE CHARACTERS BELOW.

FORMAT: 123456789

C = Can't remember and can't find readily (DK)

DK = Doesn't know

N = No SSN

R = Refusal

RE = Refusal

X = Asked questions

#### SKIP IF D 82 ≠ R, RE, or X, SKIP TO Closing Statement

D\_83 We need this information for use in another study that matches enlistments in the Armed Forces to some of the ideas we've been discussing in this interview.
